Sonoran Faux Wood

Valance Specifications

Valance Dimensions

Sonoran Faux Wood	Width	1/2"	Height	3 1/4"
-------------------	-------	------	--------	--------

Valances are attached to headrail using high strength magnets as standard, and metal valance clips are optional.

On valances with returns greater than 1", the returns will be attached to the valance using corner clips. On valances less than 1", the returns will be glued on.

Outside Mount

Width	Order width plus 1/2"
Standard Returns	2 5/8"
Minimum Return Size	1/2"
Bracket Installation	Wall Face

Flush Mount

Width	Order width plus 1"
Standard Returns	Flush with back of valance
Bracket Installation	Recessed, the front edge of bracket mounted flush with wall face.

Inside Mount

Width	Order width minus 1/8"
Standard Returns	None, valance is flush cut on the end.
Bracket Installation	Recessed, the front edge of bracket mounted 5/8" from the front of wall.

Outside Mount Valance w/ Standard Returns

Flush Mount

Inside Mount

How Valances are Measured

A = Valance Width B = Return Length
